	 <p>Taktic, Almatix, Milbitraz, Bimatraz, Ecotik</p>	<p>FLUMETHRIN</p>  <p>Bayticol pour-on, Bayticol 2%, Syperfix</p> <p>ALFACYPERMETHRIN</p>  <p>Alfapor, Renegade 50 spray, Vizac</p>	
	 <p>Bovitraz, Norotraz, Vapcozin, Amitix, Sangatraz</p>	<p>CYPERMETHRIN</p>  <p>Award, Cypermethrin 10 EC, CyperGuard, Grenade</p> <p>DELTAMETHRIN</p>  <p>Delta Guard, Vectocid</p>	
CLASS	CLASS	CLASS	CLASS
ORGANOPHOSPHATES	ORGANOPHOSPHATES + PYRETHROIDS	MACROCYCLIC LACTONES	MACROCYCLIC LACTONES
 <p>Supona</p>	<p>ALFACYPERMETHRIN + CHLORFENVIPHOS</p>  <p>Protaid</p> <p>CHLORPYRIFOS + CYPERMETHRIN</p>  <p>DuoDip</p> <p>CYPERMETHRIN + PIPERONYL</p>  <p>Secta-shampoo</p>	<p>AVERMECTINS</p> <p>Eprinomectin eg Eprizero</p> 	

FIGHT TICKS

- Rotate (change) acaricides class/group as advised by veterinary professionals.
- Testing ticks before changing acaricides where, tick acaricide resistance has emerged.
- Spray & Dip Animals as advised by veterinary professionals & Recommended by drug manufacturers.

Always seek Veterinary professional advice on acaricide mixing, spraying and dipping livestock in tick control
